EXPERIENCE

Zollege, Austin, TX

Jan 2022 - Present

Software Developer

I work closely with a team of fellow developers to plan, design, build and integrate new full stack web applications and features into various digital learning platforms.

- Design and implement robust frontend user interfaces to deliver educational content to students
- Identify and collaboratively solve problems related to frontend-backend integration

University of Houston, Houston, TX

Aug 2012 - Present

Professor of Arabic

I teach Arabic as a second language to hundreds of college students from many backgrounds, and work on multiple administrative teams to deliver extracurricular offerings including community internships, study abroad, and cultural events.

- Design, implement, and maintain original Arabic language curriculum content for all levels
- Faculty Teaching Excellence Award, 2020
- Outstanding Mentorship Award, 2020

EDUCATION

[Austin Coding Academy Bootcamp](#)
